

## **InSb 128x128 FOCAL PLANE ARRAY**

**V. M. Akymov, V. N. Vasilkov, I. L. Kasatkin, E. A. Klimanov,  
N. V. Kravtchenko, V. A. Morozov, A. A. Ryabova, V. F. Chyshko**

The State Unitary Enterprise «RD&P Centre "Orion"», Moscow, Russia

*Design of miniature Focal Plane Array on spectral range 3–5 Mm is described. Two-dimensional photodiode detector on InSb with thin base layer was used. Indium bumps for bonding silicon readout circuitry and photodetector on InSb were used.*
